

Four Seasons Water Heater

Radiant Thermal Water Heater System | Nanotechnology Water Heater

The only moving parts are electron-charged nanoparticles from AC or DC electricity inputs.

Four Seasons 30 Heater:

Four Seasons 30 | 7,500 BTU | 5 GPM | Hot Water Rise 150°+

7,500 BTU Hybrid AC/DC: 4 PV | 5 GPM | (\$5,370) w/30 Federal Tax Credit (3,759)

Size: 35" W x 10" H x 10" L 30lbs

Four Seasons 60 Heater:

Four Seasons 60 | 20,000 BTU | 10 GPM | Hot Water Rise 150°+

20,000 BTU Hybrid AC/DC: 8 PV | 10 GPM | (\$9,775) w/30 Federal Tax Credit (\$6,842)

Size: 35" W x 20" H x 20" L 60 lbs.

Four Seasons 120 Heater:

Four Seasons 120 | 40,000-200,000 BTU | 20-100 GPM | Hot Water Rise 150°+

40,000 BTU Hybrid AC/DC: 16 PV | 20 GPM | (\$19,550) w/30% Federal Tax Credit (\$13,685)

80,000 BTU Hybrid AC/DC: 32 PV | 40 GPM | (\$39,100) w/30% Federal Tax Credit (\$27,370)

120,000 BTU Hybrid AC/DC: 48 PV | 60 GPM | (\$58,650) w/30% Federal Tax Credit (\$41,055)

160,000 BTU Hybrid AC/DC: 64 PV | 80 GPM | (\$78,200) w/30% Federal Tax Credit (\$54,740)

200,000 BTU Hybrid AC/DC: 80 PV | 100 GPM | (\$97,750) w/30% Federal Tax Credit (\$68,425)

Environmental benefits:

- Fossil-Fuel Free
- Emission-free
- Zero NOx emission
- Freon-free (liquid refrigerant, R-12, R-410A-free)
- No Pilot lights, fuels, or corrosive metals.
- Remove gas heaters and save money and the planet.
- Offset or eliminate powered guzzling heat pumps.

Powering benefits:

- Hybrid AC/DC powered.
- PV Solar or Wind powered options.
- No moving parts except electron-charged nanoparticles.
- PV Solar on roof, not limited use thermal water panels.
- Works in all global altitudes and climates.
- Extreme weather water heating.
- Operates in cold temperature -60°F or -51 °C
- Salt water and chemical corrosion resistance.
- Heats water at low RPM for variable speed pumps.
- A real ROI compared to other pool heaters.

Purchase benefits:

- 30% Federal Tax Credit
- 25 Year Warranty
- Can heat and last over 100 years.
- Maintenance-free heat exchanger heater
- Easy and fast Installation within pool equipment area.
- Additional PV solar power source for other home needs.

Pool and Spa End-user benefits:

- Heats water up to 104+°F
- Year around pool season.
- Water is always hot and ready.
- No more saying. If the pool was warm, I would...
- I don't want to go swimming; the water is too cold.

Pool Industry benefits:

- 12-month pool season.
- Pool service businesses open year-round.
- Pool stores can offer pool products year-round.
